Maya Lindqvist

Frontend Developer

maya.lindqvist@example.com · +1 555 0142 · Portland, OR · mayalindqvist.example.com

SUMMARY

Frontend developer with two years of professional experience building responsive web interfaces with React and TypeScript. Computer science graduate who enjoys turning designs into accessible, well-tested components.

EXPERIENCE

Junior Frontend Developer, Pixelmint Studio **Jun 2024 - Present**

Portland, OR

- Build and maintain customer-facing dashboards in React and TypeScript for a portfolio of small e-commerce clients.
- Introduced React Testing Library and cut regression bugs reported after release by roughly a third.
- Work with designers in Figma to implement a shared component library based on Storybook.
- Improved the Lighthouse performance score of the main storefront template from 62 to 91 through code splitting and image optimisation.

Frontend Intern, Brightloop Software **Jun 2023 - Aug 2023**

Remote

- Fixed UI bugs and built small features in a Vue 3 codebase under the guidance of a senior engineer.
- Wrote Cypress end-to-end tests for the sign-up flow.

PROJECTS

Weatherly **2023**

- Weather forecast web app built with React, TypeScript and the OpenWeather API, with a seven-day forecast, saved locations and a dark mode.

Taskboard **2024**

- Kanban-style task manager with drag and drop, using React, Redux Toolkit and a Node/Express backend with MongoDB.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, HTML, CSS
- Frameworks and libraries: React, Redux Toolkit, Next.js, Vue (basic), Tailwind CSS
- Tooling: Git, Vite, Webpack, Jest, React Testing Library, Cypress, Storybook, Figma

SOFT SKILLS

- Team player
- Strong communication
- Fast learner
- Attention to detail

EDUCATION

B.Sc. Computer Science, Cascadia State University **2020 - 2024**
